

Thread angle gauge

2001.0034.0001.066

Thread angle gauge

Physical description

A thin, arrow shaped metal thread angle gauge, marked in millimetres along the sides. The gauge features the inscriptions; "Angles 60 Deg. / THE L. S. S. CO. / ATHOL, MASS. U.S.A. / No. 397" and the engravings; "A. G. ROSS" and "R. Stanley / Adelaide".

Statement of significance

This timber and canvas toolbox and associated tools belonged to Alfred Ross who worked with the Government Ordnance Factory in Maribyrong from 1933 until his death in 1979. The Maribyrong Defence Explosives factory complex which includes the Ordnance Factory has been placed on the Register of the National Estate.

The Neil, Lynette and Barry Ross collection makes an important contribution to the documentation of industrial Australia, particularly to the role of a federal government agency in the industrial development of Australia during wartime and peacetime.
